Camp Chef Takes Modular Cooking to New Levels

LOGAN, Utah -- Achieve superior performance with the convenience of a portable outdoor range from Camp Chef. Simply mix and match accessories to create the perfect outdoor kitchen any activity.

From grilling to roasting, baking to smoking, pancake breakfasts to lobster boils, Camp Chef ranges are the ultimate base around which to center a gourmet-quality workspace.

"It's like cooking on a professional gas range, right in the great outdoors," said Laura Nutt, avid outdoor chef and family camper. "I can see how everyone from fire departments to caterers would just love this stuff!"

Each stove features your choice of one, two or three durable cast burners. Each burner offers 30,000 BTU/hr of output, allowing for maximum power and versatility from delicate crepes to corn boils. Select the appropriate range for your needs based on a variety of features, from leg type to shelves.

"Once you've selected the proper stove, you can build your kitchen with all the right accessories," said Kent Millecam, Camp Chef National Sales Manager. "It's like being a kid in the candy store. There are so many options and so many great things you can do."

Add a barbecue box for great cast iron grilling flavor. Or place a professional steel griddle over the range for preparing hash browns at the hunting base camp. With a full-size cooking surface, one can add Dutch ovens, skillets, a wok or any kitchen cookware and create any culinary creation outside.

"While these are designed for commercial use, everybody else has caught on to what a great way this

is to cook," said Millecam. "From beach parties to patio feasts, these stoves are a great way to get gourmet results in the outdoors."

About Camp Chef

Established in 1991, Logan, Utah-based Camp Chef is a privately held manufacturer of high-end cooking equipment for outdoor and indoor enthusiasts. Camp Chef is devoted to bringing its customers innovative and cutting edge modular cooking systems ranging from quality cast iron Dutch ovens and skillets, powerful propane outdoor cook stoves, and most recently, the Turkey Cannon, which can cook a 12-pound turkey in less than 90-minutes.
